

Configure APN

Manually set the access point name

Steps for iPhone

1. Go to Cellular

Open the Settings app and tap "Cellular".

2. Select your eSIM

Tap your eSIM in the SIM cards list.

3. Tap Cellular Data Network

Scroll down and tap "Cellular Data Network".

4. Enter the APN

Type "data.esim" in the APN field. Leave username and password empty.

Steps for Android

1. Open Settings

Go to Settings > "Connections" or "Network & internet".

2. Go to Mobile networks

Tap "Mobile networks" and select your eSIM.

3. Go to Access Point Names

Tap "Access Point Names" or "APN".

4. Add or edit APN

Tap "+" or edit the existing APN. Enter "data.esim" in the APN field. Save.

Good to know

APN (access point): data.esim, leave username and password empty.
