

Install your eSIM

Install your eSIM at home via QR code or the app

Tip: Use the eSIM op reis app to install with a single tap!

Steps for iPhone

1. Open Settings

Open the Settings app on your phone.

2. Go to Cellular

Tap "Cellular".

3. Tap "Add eSIM"

Scroll down and tap "Add eSIM" at the bottom of the SIM list.

4. Choose "Use QR Code"

Tap "Use QR Code" to open the camera and scan the code from your email.

5. Done!

Your eSIM is downloaded and installed. This can take a few minutes.

Steps for Samsung

1. Open Settings

Open Settings and tap "Connections".

2. Open SIM manager

Tap "SIM manager".

3. Add mobile plan

Under "SIM cards", tap "Add mobile plan".

4. Scan the QR code

Choose "Scan QR code" and scan the code from your email. Your eSIM will be installed.

5. Done!

Your eSIM now appears in SIM manager. Optionally give it a name like "Travel data".

Steps for Android

1. Open Settings

Open Settings and go to "Network & internet".

2. Open SIMs

Tap "SIMs".

3. Download a SIM

Tap "Download a SIM instead" and then choose to scan a QR code.

4. Done!

Scan the QR code from your email. Your eSIM appears in your list of SIMs.

Good to know

APN (access point): data.esim, leave username and password empty.
